

## CHANNEL/ BRAND CREATION PROMPTS:

Generate a list of 30 unique and imaginative YouTube channel names for a platform centered on 3D animation storytelling. Each name should be striking, engaging, and representative of groundbreaking animated narratives. They must convey artistic sophistication, futuristic aesthetics, and visionary storytelling. Ensure the names are distinct, compelling, and perfectly aligned with a next-level 3D animation YouTube channel experience.

## BRAND/ CHANNEL DESCRIPTION AND SEO:

Write an engaging channel description with SEO hashtags and emojis for a channel named [CHANNEL NAME]. The description must be exactly 100 words, delivered in a catchy, dynamic tone with a Gen Z flair—modern, playful, and relatable while remaining professional. Clearly define the channel's focus, unique vibe, and the types of content viewers can expect. Strategically integrate SEO hashtags throughout, and use emojis to accentuate key points. Aim for a balanced mix of creativity and clarity that instantly connects with your audience and highlights the channel's distinctive personality and innovative content.

## C/B BANNER AND LOGO PROMPTS 🎨:

Using [CHANNEL\_NAME] as the focal point and [COLOR\_THEME] as the key palette, generate four separate text-to-image prompts to design a scalable logo and immersive banner for a professional YouTube channel. Each prompt should reflect one of these themes: **minimalistic, intense, futuristic, and cinematic**. Specify layout, typography, iconography, and artistic style (e.g., **flat, gradient, 3D effects**). Ensure the designs evoke innovation, artistic depth, and brand personality, appealing to a **modern, tech-savvy audience**, with optional tagline integration.

## VIDEO IDEAS GENERATION :

Generate [NUMBER] unique and imaginative video ideas for a professional 3D animation channel. Each idea should include a working title, main character(s) with names, roles, and brief descriptions, and a succinct plot summary (1–2 sentences). Optionally, provide details on the setting or world-building elements, genre and tone, overarching theme or message, unique visual or stylistic elements, and target audience if applicable. Adjust the number of ideas and sections as needed. Ensure every idea is fresh, engaging, and visually appealing while maintaining high-quality storytelling. The ideas MUST BE IN THIS ONE OF THIS **GENRE** e.g., **historical, fantasy, sci-fi, everyday life, Action, Adventure, Animation, Biography,, Crime, Documentary, Drama, Family, Fantasy, Film Noir, History, Horror, Musical, Mystery, Romance, Science Fiction, Thriller, War, Western, Superhero, Cyberpunk, Steampunk, Dystopian, Utopian, Psychological, Political, Satire, Parody, Dark Comedy, Coming-of-Age, Slice of Life, Experimental, Martial Arts, Road, Period, Spy, Disaster, Courtroom, Epic, Historical Fiction, Supernatural, Magic Realism**), and must be innovative enough to captivate both creators and audiences. Push creative boundaries and explore unexpected narrative twists, vibrant worlds, and unforgettable character journeys.

## SCRIPT PROMPT:

Write a story in the format of a voiceover narration that kicks off with a catchy, INSANE, JAW-DROPPING, THOUGHT PROVOKING attention-grabbing line to immediately captivate the audience. The about a (**paste the whole idea your chatbot generated here**) **ADD WORD COUNT**

# IMAGE GENERATION PROMPTS :

Act as an expert text-to-image prompt engineer. Analyze the entire script YOU provide—scene by scene—and generate detailed text-to-image prompts that capture every sentence's visual elements. For each scene, create prompts covering setting, character details, actions, mood, lighting, colors, and art style using this format: "[CharacterName] is a [age]-year-old [gender] with [facial features] (e.g., [hair color/style, eye shape, distinctive features]), wearing [clothing style] that reflects their [personality traits]. Their [physical mannerisms] (such as [posture or gesture]) express their unique presence. Animation style: **DISNEY 3D PIXAR ( OR *Motion Graphics Anime, Hybrid Animation*)**). In this scene, they are [action/position] in a [environment] setting, enhanced by [lighting, mood, colors, art style]."

Prioritize consistent portrayals for recurring characters like (**MAIN CHARACTERS NAME**), and supply additional prompts for purely environmental scenes as needed. we need every single sentence/scene mentioned...follow the same structure of prompting all prompt should start the same and end the same, in order to not confuse the Ai, but actions, environment, emotions and clothing and others should change, but all should start with the same description structure and end the same, even if the camera angle changes. All prompts should start and end the same, (**AT ALL COST**).. WE (**NEED 30**) prompt, and each prompt should have multiple angles shots, so if we need 30 prompts and **3 angles** for each we then need, a total of **90 prompts** to help cover every single segments of the story, so each scene should have multiple (**3 three**) prompts, that will all help generate that exact scene, which gives us more flexibility when editing.

## PROMPT FOR IMAGE TO VIDEO ANIMATION:

(After previously generating text-to-image prompts for various scenes in our story, please now generate a series of image-to-video prompts. When I upload the first scene as an image, provide a detailed, dynamic, and cinematic **20-word** prompt that instructs an image-to-video tool on how to animate the static image. The prompt should include directions on **camera movement, lighting, atmospheric effects**, and any narrative-driven transitions that capture the essence of the scene. Each prompt must be exactly **20 words**. Repeat this process for each subsequent scene image.)

## PROMPT TO GENERATE BACKGROUND MUSIC 🎵 :

We are developing background music this specific creative project using text-to-music AI. Please generate a list of music genres that best suit our project's sophisticated atmosphere. For each genre, provide a concise text prompt (maximum 200 characters) that describes the desired sound. Include key adjectives, instruments, and mood descriptors relevant to the genre. Consider emotional tone, context, and target audience in your descriptions. Your output should be well-structured and detailed, offering genres such as Ambient, Cinematic, Epic Orchestral, Modern Electronic, Lo-Fi Hip Hop, and Experimental. Ensure clarity and quality to guide effective music generation.

# PROMPTS FOR SOUND EFFECTS:

"I will provide you with a series of screenshots that depict a specific scene and environment from my project, along with any necessary context regarding what is happening in the scene. Your task is to analyze the visuals and context to recommend the perfect sound effects that will enhance and bring the scene to life.

Please consider the following in your analysis:

- **Ambient and Environmental Sounds:** Identify background sounds that fit the location and atmosphere.
- **Mood and Tone:** Choose sound effects that align with the emotional context and overall vibe of the scene.
- **Action and Dynamics:** If there are any actions or key events, suggest specific sound cues that highlight these moments.
- **Character and Narrative Elements:** Recommend sound effects that complement any character interactions or narrative details present in the scene.

Provide a detailed explanation for each sound effect recommendation, describing how it enhances the scene and why it fits the overall context.

You're welcome.💙"
